

Standard contractual clauses

SECTION I

Clause 1

Purpose and scope

- (a) The purpose of these Standard Contractual Clauses (the Clauses) is to ensure compliance with Article 28(3) and (4) of Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data.
- (b) The controllers and processors listed in Annex I have agreed to these Clauses in order to ensure compliance with Article 28(3) and (4) of Regulation (EU) 2016/679 and/or Article 29(3) and (4) of Regulation (EU) 2018/1725.
- (c) These Clauses apply to the processing of personal data as specified in Annex II.
- (d) Annexes I to IV are an integral part of the Clauses.
- (e) These Clauses are without prejudice to obligations to which the controller is subject by virtue of Regulation (EU) 2016/679 and/or Regulation (EU) 2018/1725.
- (f) These Clauses do not by themselves ensure compliance with obligations related to international transfers in accordance with Chapter V of Regulation (EU) 2016/679 and/or Regulation (EU) 2018/1725.

Clause 2

Invariability of the Clauses

- (a) The Parties undertake not to modify the Clauses, except for adding information to the Annexes or updating information in them.
- (b) This does not prevent the Parties from including the standard contractual clauses laid down in these Clauses in a broader contract, or from adding other clauses or additional safeguards provided that they do not directly or indirectly contradict the Clauses or detract from the fundamental rights or freedoms of data subjects.

Clause 3

Interpretation

- (a) Where these Clauses use the terms defined in Regulation (EU) 2016/679 or Regulation (EU) 2018/1725 respectively, those terms shall have the same meaning as in that Regulation.
- (b) These Clauses shall be read and interpreted in the light of the provisions of Regulation (EU) 2016/679 or Regulation (EU) 2018/1725 respectively.
- (c) These Clauses shall not be interpreted in a way that runs counter to the rights and obligations provided for in Regulation (EU) 2016/679 / Regulation (EU) 2018/1725 or in a way that prejudices the fundamental rights or freedoms of the data subjects.

Clause 4

Hierarchy

In the event of a contradiction between these Clauses and the provisions of related agreements between the Parties existing at the time when these Clauses are agreed or entered into thereafter, these Clauses shall prevail.

Clause 5 - Optional

Docking clause

- (a) Any entity that is not a Party to these Clauses may, with the agreement of all the Parties, accede to these Clauses at any time as a controller or a processor by completing the Annexes and signing Annex I.
- (b) Once the Annexes in (a) are completed and signed, the acceding entity shall be treated as a Party to these Clauses and have the rights and obligations of a controller or a processor, in accordance with its designation in Annex I.
- (c) The acceding entity shall have no rights or obligations resulting from these Clauses from the period prior to becoming a Party.

SECTION II

OBLIGATIONS OF THE PARTIES

Clause 6

Description of processing(s)

The details of the processing operations, in particular the categories of personal data and the purposes of processing for which the personal data is processed on behalf of the controller, are specified in Annex II.

Clause 7

Obligations of the Parties

7.1. Instructions

- (a) The processor shall process personal data only on documented instructions from the controller, unless required to do so by Union or Member State law to which the processor is subject. In this case, the processor shall inform the controller of that legal requirement before processing, unless the law prohibits this on important grounds of public interest. Subsequent instructions may also be given by the controller throughout the duration of the processing of personal data. These instructions shall always be documented.

- (b) The processor shall immediately inform the controller if, in the processor's opinion, instructions given by the controller infringe Regulation (EU) 2016/679 / Regulation (EU) 2018/1725 or the applicable Union or Member State data protection provisions.

7.2. Purpose limitation

The processor shall process the personal data only for the specific purpose(s) of the processing, as set out in Annex II, unless it receives further instructions from the controller.

7.3. Duration of the processing of personal data

Processing by the processor shall only take place for the duration specified in Annex II.

7.4. Security of processing

- (a) The processor shall at least implement the technical and organisational measures specified in Annex III to ensure the security of the personal data. This includes protecting the data against a breach of security leading to accidental or unlawful destruction, loss, alteration, unauthorised disclosure or access to the data (personal data breach). In assessing the appropriate level of security, the Parties shall take due account of the state of the art, the costs of implementation, the nature, scope, context and purposes of processing and the risks involved for the data subjects.

- (b) The processor shall grant access to the personal data undergoing processing to members of its personnel only to the extent strictly necessary for implementing, managing and monitoring of the contract. The processor shall ensure that persons authorised to process the personal data received have committed themselves to confidentiality or are under an appropriate statutory obligation of confidentiality.

7.5. Sensitive data

If the processing involves personal data revealing racial or ethnic origin, political opinions, religious or philosophical beliefs, or trade union membership, genetic data or biometric data for the purpose of uniquely identifying a natural person, data concerning health or a person's sex life or sexual orientation, or data relating to

criminal convictions and offences (“sensitive data”), the processor shall apply specific restrictions and/or additional safeguards.

7.6. Documentation and compliance

- (a) The Parties shall be able to demonstrate compliance with these Clauses.
- (b) The processor shall deal promptly and adequately with inquiries from the controller about the processing of data in accordance with these Clauses.
- (c) The processor shall make available to the controller all information necessary to demonstrate compliance with the obligations that are set out in these Clauses and stem directly from Regulation (EU) 2016/679 and/or Regulation (EU) 2018/1725. At the controller’s request, the processor shall also permit and contribute to audits of the processing activities covered by these Clauses, at reasonable intervals or if there are indications of non-compliance. In deciding on a review or an audit, the controller may take into account relevant certifications held by the processor.
- (d) The controller may choose to conduct the audit by itself or mandate an independent auditor. Audits may also include inspections at the premises or physical facilities of the processor and shall, where appropriate, be carried out with reasonable notice.
- (e) The Parties shall make the information referred to in this Clause, including the results of any audits, available to the competent supervisory authority/ies on request.

7.7. Use of sub-processors

- (a) The processor has the controller’s general authorisation for the engagement of sub-processors from an agreed list. The processor shall specifically inform in writing the controller of any intended changes of that list through the addition or replacement of sub-processors at least 7 days in advance, thereby giving the controller sufficient time to be able to object to such changes prior to the engagement of the concerned sub-processor(s). The processor shall provide the controller with the information necessary to enable the controller to exercise the right to object.
- (b) Where the processor engages a sub-processor for carrying out specific processing activities (on behalf of the controller), it shall do so by way of a contract which imposes on the sub-processor, in substance, the same data protection obligations as the ones imposed on the data processor in accordance with these Clauses. The processor shall ensure that the sub-processor complies with the obligations to which the processor is subject pursuant to these Clauses and to Regulation (EU) 2016/679 and/or Regulation (EU) 2018/1725.
- (c) At the controller’s request, the processor shall provide a copy of such a sub-processor agreement and any subsequent amendments to the controller. To the extent necessary to protect business secret or other confidential information, including personal data, the processor may redact the text of the agreement prior to sharing the copy.

(d)The processor shall remain fully responsible to the controller for the performance of the sub-processor's obligations in accordance with its contract with the processor. The processor shall notify the controller of any failure by the sub-processor to fulfil its contractual obligations.

(e)The processor shall agree a third party beneficiary clause with the sub-processor whereby - in the event the processor has factually disappeared, ceased to exist in law or has become insolvent - the controller shall have the right to terminate the sub-processor contract and to instruct the sub-processor to erase or return the personal data.

7.8. International transfers

(a)Any transfer of data to a third country or an international organisation by the processor shall be done only on the basis of documented instructions from the controller or in order to fulfil a specific requirement under Union or Member State law to which the processor is subject and shall take place in compliance with Chapter V of Regulation (EU) 2016/679 or Regulation (EU) 2018/1725.

(b)The controller agrees that where the processor engages a sub-processor in accordance with Clause 7.7. for carrying out specific processing activities (on behalf of the controller) and those processing activities involve a transfer of personal data within the meaning of Chapter V of Regulation (EU) 2016/679, the processor and the sub-processor can ensure compliance with Chapter V of Regulation (EU) 2016/679 by using standard contractual clauses adopted by the Commission in accordance with of Article 46(2) of Regulation (EU) 2016/679, provided the conditions for the use of those standard contractual clauses are met.

Clause 8

Assistance to the controller

(a)The processor shall promptly notify the controller of any request it has received from the data subject. It shall not respond to the request itself, unless authorised to do so by the controller.

(b)The processor shall assist the controller in fulfilling its obligations to respond to data subjects' requests to exercise their rights, taking into account the nature of the processing. In fulfilling its obligations in accordance with (a) and (b), the processor shall comply with the controller's instructions

(c)In addition to the processor's obligation to assist the controller pursuant to Clause 8(b), the processor shall furthermore assist the controller in ensuring compliance with the following obligations, taking into account the nature of the data processing and the information available to the processor:

(1)the obligation to carry out an assessment of the impact of the envisaged processing operations on the protection of personal data (a 'data protection impact assessment')

where a type of processing is likely to result in a high risk to the rights and freedoms of natural persons;

- (2) the obligation to consult the competent supervisory authority/ies prior to processing where a data protection impact assessment indicates that the processing would result in a high risk in the absence of measures taken by the controller to mitigate the risk;
- (3) the obligation to ensure that personal data is accurate and up to date, by informing the controller without delay if the processor becomes aware that the personal data it is processing is inaccurate or has become outdated;
- (4) the obligations in Article 32 of Regulation (EU) 2016/679.

(d) The Parties shall set out in Annex III the appropriate technical and organisational measures by which the processor is required to assist the controller in the application of this Clause as well as the scope and the extent of the assistance required.

Clause 9

Notification of personal data breach

In the event of a personal data breach, the processor shall cooperate with and assist the controller for the controller to comply with its obligations under Articles 33 and 34 of Regulation (EU) 2016/679 or under Articles 34 and 35 of Regulation (EU) 2018/1725, where applicable, taking into account the nature of processing and the information available to the processor.

9.1 Data breach concerning data processed by the controller

In the event of a personal data breach concerning data processed by the controller, the processor shall assist the controller:

- (a) in notifying the personal data breach to the competent supervisory authority/ies, without undue delay after the controller has become aware of it, where relevant/(unless the personal data breach is unlikely to result in a risk to the rights and freedoms of natural persons);
- (b) in obtaining the following information which, pursuant to Article 33(3) of Regulation (EU) 2016/679/, shall be stated in the controller's notification, and must at least include:
 - (1) the nature of the personal data including where possible, the categories and approximate number of data subjects concerned and the categories and approximate number of personal data records concerned;
 - (2) the likely consequences of the personal data breach;

- (3) the measures taken or proposed to be taken by the controller to address the personal data breach, including, where appropriate, measures to mitigate its possible adverse effects.

Where, and insofar as, it is not possible to provide all this information at the same time, the initial notification shall contain the information then available and further information shall, as it becomes available, subsequently be provided without undue delay.

- (c) in complying, pursuant to Article 34 of Regulation (EU) 2016/679, with the obligation to communicate without undue delay the personal data breach to the data subject, when the personal data breach is likely to result in a high risk to the rights and freedoms of natural persons.

9.2 Data breach concerning data processed by the processor

In the event of a personal data breach concerning data processed by the processor, the processor shall notify the controller without undue delay after the processor having become aware of the breach. Such notification shall contain, at least:

- (a) a description of the nature of the breach (including, where possible, the categories and approximate number of data subjects and data records concerned);
- (b) the details of a contact point where more information concerning the personal data breach can be obtained;
- (c) its likely consequences and the measures taken or proposed to be taken to address the breach, including to mitigate its possible adverse effects.

Where, and insofar as, it is not possible to provide all this information at the same time, the initial notification shall contain the information then available and further information shall, as it becomes available, subsequently be provided without undue delay.

The Parties shall set out in Annex III all other elements to be provided by the processor when assisting the controller in the compliance with the controller's obligations under Articles 33 and 34 of Regulation (EU) 2016/679.

SECTION III

FINAL PROVISIONS

Clause 10

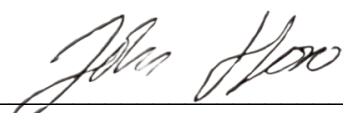

Non-compliance with the Clauses and termination

- (a) Without prejudice to any provisions of Regulation (EU) 2016/679 and/or Regulation (EU) 2018/1725, in the event that the processor is in breach of its obligations under these Clauses, the controller may instruct the processor to suspend the processing of personal

data until the latter complies with these Clauses or the contract is terminated. The processor shall promptly inform the controller in case it is unable to comply with these Clauses, for whatever reason.

- (b) The controller shall be entitled to terminate the contract insofar as it concerns processing of personal data in accordance with these Clauses if:
 - (1) the processing of personal data by the processor has been suspended by the controller pursuant to point (a) and if compliance with these Clauses is not restored within a reasonable time and in any event within one month following suspension;
 - (2) the processor is in substantial or persistent breach of these Clauses or its obligations under Regulation (EU) 2016/679 and/or Regulation (EU) 2018/1725;
 - (3) the processor fails to comply with a binding decision of a competent court or the competent supervisory authority/ies regarding its obligations pursuant to these Clauses or to Regulation (EU) 2016/679 and/or Regulation (EU) 2018/1725.
 - (c) The processor shall be entitled to terminate the contract insofar as it concerns processing of personal data under these Clauses where, after having informed the controller that its instructions infringe applicable legal requirements in accordance with Clause 7.1 (b), the controller insists on compliance with the instructions.
 - (d) Following termination of the contract, the processor shall, at the choice of the controller, delete all personal data processed on behalf of the controller and certify to the controller that it has done so, or, return all the personal data to the controller and delete existing copies unless Union or Member State law requires storage of the personal data. Until the data is deleted or returned, the processor shall continue to ensure compliance with these Clauses.
-

ANNEX II

Description of the processing

1. Purpose, subject matter, and nature	
<ul style="list-style-type: none">• Fulfill its obligations under the Service Agreement, any service-specific terms, and this Data Processing Agreement.• Fulfill the Data Processor's obligations under applicable data protection legislation that is applicable to the Data Processor in its capacity as a data processor when processing personal data under the Service Agreement and this Data Processing Agreement.• For Direct Customers and Direct Customers with an agency agreement who are sole proprietorships, the purpose is also to transfer personal data to companies within the same group as Briox so that such companies can provide and market services closely related to Briox's services, such as insurance, invoicing, and printing.• Organizing, structuring, storing, and collecting personal data in the form of file import or via the Briox API.• Transferring personal data to fulfill the Data Processor's obligations in accordance with section 7.7 of the Data Processing Agreement.• Processing or modifying, copying, adjusting, or merging, and deleting personal data to fulfill the Data Processor's obligations under the Data Processing Agreement at the request of the Data Controller.• Matching the Data Controller's personal data with external registers.	
2. The processing includes the following types of personal data	
Personal data <input checked="" type="checkbox"/> Identity Personal Data <input checked="" type="checkbox"/> Contact Information <input type="checkbox"/> Work-Related Personal Data <input checked="" type="checkbox"/> IT-Related Personal Data <input checked="" type="checkbox"/> Billing Information Examples from the checked categories: <ul style="list-style-type: none">• First and last name, personal identification number, coordination number, email address, and address• Customer number, address, reference• Accounting information	Sensitive Personal Data <input type="checkbox"/> Ethnic Origin <input checked="" type="checkbox"/> Political Opinions <input checked="" type="checkbox"/> Religious Beliefs <input checked="" type="checkbox"/> Trade Union Membership <input type="checkbox"/> Genetic Personal Data <input type="checkbox"/> Biometric Personal Data <input type="checkbox"/> Health Data <input type="checkbox"/> Sexual Orientation or Sexual Life These personal data may be processed by the Data Processor depending on the activity in which the Data Controller chooses to use the Services.
Privacy-Sensitive Personal Data <input type="checkbox"/> Personal Identification Number <input type="checkbox"/> Coordination Number <input type="checkbox"/> Performance-Related Personal Data	

<input checked="" type="checkbox"/> Financial Personal Data <input type="checkbox"/> Data on Criminal Offenses <input type="checkbox"/> Personal Data Related to the Private Sphere <input type="checkbox"/> Data on Social Conditions	
---	--

3. The processing includes the following categories

Employees
 Relatives
 Suppliers
 Customers
 Job applicants
 User
 Other, specify: The data controller’s customers, members, and suppliers, as well as other categories of data subjects whose personal data the data controller handles. Depending on the activity the data controller chooses to use the services for, the data processor may process personal data about minors.

4. Specify any special handling requirements regarding the processing of personal data carried out by the data processor(s); see also examples in Annex III.

Encryption: Personal data is encrypted and stored in two geographically separate data centers with full redundancy at all levels. Security tests are conducted continuously to ensure compliance with security standards. All data communication is performed using Secure Sockets Layer (SSL) protocol. SSL is the most commonly used Internet standard for encrypted communication. Briox uses 256-bit SSL encryption and 2048-bit public keys from RSA.

Password Protection: The login procedure is fully encrypted, meaning no information is sent as unencrypted text. The user’s password is stored in a one-way encrypted format (using a standardized one-way cipher).

Backup Redundancy: Backup procedures have multiple levels of redundancy.

Firewalls: Briox’s server environment and network are protected by firewalls. Additionally, Briox takes a proactive approach by monitoring and analyzing firewalls and system logs.

Database Security and Backups: Briox has comprehensive backup procedures that ensure continuity of the Service. Backups are performed daily. The encryption of users’ passwords remains intact during backups. Complete backups are made daily and transferred to two physically separate locations.

5. Specify the particular technical and organizational security measures concerning the processing of personal data carried out by the data processor(s); see also examples in Annex III.

No special requirements beyond those specified in the Main Agreement

6. Specify any special logging requirements regarding the processing of personal data and who should have access to the logs; see also examples in Annex III

No special requirements beyond those specified in the Main Agreement

7. Location and transfer of personal data to a third country

In the use of certain programs or features, we may share personal data with subcontractors/sub-processors of Briox both within and outside the EU/EEA. A complete overview of the recipients and locations for each processing of personal data within the Services is available in Annex 4 and in Annex 2 of the Privacy Notice.

8. Other instructions regarding the processing of personal data carried out by the processor(s)

No special instructions beyond those specified in the Main Agreement

ANNEX III

Technical and organisational measures including technical and organisational measures to ensure the security of the data

Encryption: Personal data is encrypted and stored in two geographically separate data centers with full redundancy at all levels. Security tests are conducted continuously to ensure compliance with security standards.

We adhere to the Principle of Least Privilege by ensuring that users and systems are granted only the minimum level of access necessary to perform their specific tasks. This approach limits the potential for unauthorized access or misuse of data, enhancing overall security and reducing risk. Only a few key personnel are aware of the detailed structure of the security system. This limited access helps protect the security infrastructure from potential breaches.

To prevent unauthorized access when a computer is left unattended, the system automatically logs out users after a selected period of inactivity. Users can configure automatic logout settings for intervals of 15 minutes, 30 minutes, 1 hour, 2 hours, or 8 hours. Users are responsible for any unauthorized use of the service that may occur if they leave a logged-in computer unattended.

Continuous user verification is implemented by checking the logged-in user's authorization with every request to the Briox servers. This ensures that each interaction with the service is validated for appropriate access rights.

All staff are bound by confidentiality and non-disclosure agreements that prevent the dissemination of data, information, and personal details of customers or users. Access to sensitive information is restricted to authorized personnel only, and access rights are managed by the Briox IT department.

Briox has established a process for managing potential incidents. This process outlines the information flow, procedures, roles, and responsibilities involved. An incident response team is responsible for coordinating, communicating, and managing the evaluation, response, and learning from incidents to reduce the risk of recurrence.

Password Protection: The login procedure is fully encrypted, meaning no information is sent as unencrypted text. The user's password is stored in a one-way encrypted format (using a standardized one-way cipher).

All data communication is performed using Secure Sockets Layer (SSL) protocol. SSL is the most commonly used Internet standard for encrypted communication. Briox uses 256-bit SSL encryption and 2048-bit public keys from RSA.

Database Security and Backups: Briox has comprehensive backup procedures that ensure continuity of the Service. Backups are performed daily. The encryption of users' passwords remains intact during backups. Complete backups are made daily and transferred to two physically separate locations.

Firewalls: Briox's server environment and network are protected by firewalls. Additionally, Briox takes a proactive approach by monitoring and analyzing firewalls and system logs.

To ensure the physical security of locations where personal data is processed, our hosting suppliers implement the following measures:

- **Access Control:** Strict access control protocols are enforced, including biometric systems, key cards, PIN codes, and multi-factor authentication, to limit access to authorized personnel only.
 - **Perimeter and Facility Security:** Data centers are protected by robust perimeter security, including fencing, security guards, and continuous CCTV surveillance, monitored 24/7 to detect and address any security threats.
 - **Intrusion Detection and Monitoring:** Advanced intrusion detection systems and real-time alert mechanisms are used to monitor for and respond to physical breaches or suspicious activities.
 - **Environmental and Fire Safety Controls:** Facilities are equipped with environmental controls, such as climate regulation, redundant power supplies, and fire suppression systems, to safeguard against environmental hazards and ensure operational continuity.
 - **On-Site Security Personnel:** Dedicated security staff manage access, monitor activities, and respond to incidents, ensuring the security of the facility at all times.
 - **Facility Design and Physical Barriers:** Data centers feature reinforced walls, secure server racks, and controlled access zones to prevent unauthorized access and protect sensitive data areas.
 - **Compliance and Audits:** Regular security audits and certifications, such as ISO 27001, are conducted to ensure adherence to industry best practices and regulatory requirements.
-

ANNEX IV

List of sub-processors

<https://briox.com/fi-en/subprocessors-list>
